

RES Joins KKR's Green Solutions Platform

August 16, 2016 Houston, TX

We are proud to announce that RES is featured in this year's release of the results of the [Green Solutions Platform](#) (GSP), a global environmental program of our investment partner, KKR. The GSP is KKR's global effort to identify, support, and highlight environmental initiatives at KKR portfolio companies across three areas: eco-efficiency, eco-innovation, and/or eco-solutions. The program applies KKR's approach of assessing, measuring, optimizing, and highlighting performance to support participating portfolio companies' efforts to manage their environmental impacts while also seeking to improve their businesses.

The GSP – launched in December 2015 – follows eight years of results and impact from KKR's pioneering environmental initiative, the Green Portfolio Program (GPP). The GSP now includes nearly 30 reporting companies.
